

Alnova

Empower Your Practice: The Path to Perfect Smiles

Transform Patient Experiences and Enhance Treatment Outcomes

Alnova is an innovative software solution designed for orthodontic clinics, enhancing the patient care experience while streamlining operations. Our platform offers tools tailored to the needs of both orthodontic professionals and patients, ensuring a smoother treatment journey towards achieving perfect smiles. With Alnova, clinics can elevate their service offering, improve satisfaction, and achieve better treatment outcomes.

Key Features

- **Comprehensive Patient Management**

Simplify patient onboarding, integrate seamlessly with existing EMR systems, and customize profiles for a personalized care experience.

- **Advanced Progress Tracking**

Utilize intuitive charts, timelines, and predictive analytics for real-time monitoring of treatment progress and outcome forecasts.

- **Engaging Patient Education**

Provide access to interactive tutorials and care instructions, supplemented by a gamified reward system to motivate patients throughout their orthodontic journey.

Pricing Plans

- **Basic Plan:** 300 CAD / month (up to 100 active patients)
- **Standard Plan:** 400 CAD / month (100–300 active patients)
- **Premium Plan:** 500 CAD / month (over 300 active patients)
- **Unlimited Plan:** Access to all features

Why Alnova Pays Off

- **Time Savings = More Patients**

Automation saves 5–7 hours/week, freeing staff to serve more patients

- **Improved Case Compliance**

Reminders and education boost adherence by 15-20%, reducing retreatments

- **Revenue Growth**

Better workflows and satisfaction drive 10-15% more retention and referrals

- **Lower Risk, Higher Trust**

HIPAA/PIPEDA compliance cuts breach risks, avoiding costly penalties
